

7th International Conference on Mobile and Ubiquitous Multimedia  
In cooperation with ACM SIGMOBILE

– CALL FOR PAPERS –

**7th INTERNATIONAL CONFERENCE ON  
MOBILE AND UBIQUITOUS MULTIMEDIA**

**In cooperation with ACM SIGMOBILE**

DECEMBER 3–5, 2008

UMEÅ, SWEDEN

## INTRODUCTION

MUM 2008 is a leading annual international conference, which provides a forum for presenting the latest research results on mobile and ubiquitous multimedia. Best Paper Award and Best Student Paper Award will be presented for outstanding contributions. Conference proceedings will be archived in ACM Digital Library.

## CONFERENCE TOPICS

Original submissions are solicited on, but not limited to, the following topics on mobile and ubiquitous multimedia:

- Architectures, protocols, and algorithms to cope with mobility, roaming, limited bandwidth, or intermittent connectivity
- Case studies, field trials and evaluations of new applications and services

[www.mum2008.org](http://www.mum2008.org)

7th International Conference on Mobile and Ubiquitous Multimedia  
In cooperation with ACM SIGMOBILE

– CALL FOR PAPERS –

- Mobile user interfaces, interaction design and techniques, user-centered studies
- Intelligent, aware, proactive, and attentive environments, perception and modeling of the environment
- Middleware and distributed computing support for mobile and ubiquitous multimedia
- Mobile computer graphics, games and entertainment
- Mobile and ubiquitous multimedia in intelligent transport systems
- Novel adaptive/context-aware/mobile/ubiquitous/wireless multimedia applications and systems
- Mobile media management
- Rich media applications on mobile devices
- Streaming mobile multimedia
- Mobile and ubiquitous multimedia in ad hoc networks

## IMPORTANT DATES

- August 11, 2008: Submission deadline
- September 22, 2008: Notification of acceptance
- October 13, 2008: Camera-ready version due
- October 13, 2008: Author registration deadline
- December 1, 2008: Regular registration deadline
- December 3–5, 2008: Conference dates (incl. on the spot registration)

## PAPER SUBMISSION

- Submissions are requested in form of a full paper totaling at most 5 000 words.
- Authors are encouraged to use the ACM paper format, as the conference proceedings will be archived in the ACM Digital Library.
- All papers will be subject to blind review by at least three independent reviewers. Therefore authors should not include their personal information in the cover page nor obvious references to own previous publications.
- Papers should be submitted electronically as PDF files via the conference web site:  
[www.mum2008.org/submit.php](http://www.mum2008.org/submit.php)

**INTERNATIONAL PROGRAM COMMITTEE**

- |   |   |
|---|---|
| Christer Åhlund, Luleå University of Technology, Sweden         | Timo Ojala, University of Oulu, Finland   |
| Christian Becker, University of Mannheim, Germany               | Mark Ollila, Nokia, Finland   |
| Harry Chen, ImageMatters, USA                                   | Peter Parnes, Google, Sweden  |
| Maurice Chu, PARC, USA  | Kostas Pentikousis, VTT Technical Research Centre of Finland, Finland                   |
| Noel Crespi, Institut TELECOM SudParis, France                  | Stefan Pettersson, Mid-Sweden University, Sweden  |
| David Doermann, University of Maryland, USA                     | Evaggelia Pitoura, University of Ioannina, Greece                                       |
| David Ebert, Purdue University, USA                             | Matthias Rauterberg, Technical University Eindhoven, The Netherlands                    |
| Cristiano di Flora, Nokia Research Center, Finland              | Marco Di Renzo, Telecommunications Technological Center of Catalonia (CTTC), Spain      |
| Stefan Håkansson, Ericsson Research, Sweden                     | Jukka Riekkii, University of Oulu, Finland  |
| Jonathan Hull, Ricoh, USA                                       | Oriana Riva, ETH Zurich, Switzerland  |
| Theo Kanter, Mid-Sweden University, Sweden                      | Michael Rohs, Deutsche Telekom, Germany   |
| Thomas Kirste, Rostock University, Germany                      | Balasubramanian Srinivasan, Monash University, Australia                                |
| Gerd Kortuem, Lancaster University, UK                          | Kåre Synnes, Luleå University of Technology, Sweden                                     |
| Kari Kuutti, University of Oulu, Finland                        | Violet Syrotiuk, Arizona State University, USA  |
| Artur Lugmayr, Tampere University of Technology, Finland        | David Taniar, Monash University, Australia  |
| Mihhail Matskin, Royal Institute of Technology, Sweden          | Do van Thanh, <i>Telenor and Norwegian University of Science and Technology, Norway</i> |
| Eila Niemelä, VTT Technical Research Centre of Finland, Finland | Jari Veijalainen, University of Jyväskylä, Finland                                      |
| Chris Nugent, University of Ulster, UK                          | Yu Zheng, Microsoft Research Asia, China  |

**INTERNATIONAL PROGRAM COMMITTEE CHAIRS**

**GENERAL CHAIR**

Mikael Wiberg, *Umeå University*

**INTERNATIONAL PROGRAM CHAIR**

Arkady Zaslavsky, *Luleå University of Technology*

**INDUSTRY CO CHAIRS**

Mikael Börjeson, *Luleå University of Technology / Centre for Distance-spanning Technology, Sweden*

Do van Thanh, *Telenor and Norwegian University of Science and Technology, Norway*

7th International Conference on Mobile and Ubiquitous Multimedia  
In cooperation with ACM SIGMOBILE

– CALL FOR PAPERS –

**DOCTORAL CONSORTIUM CHAIR**

Artur Lugmayr, *Tampere University of  
Technology, Finland*

**PUBLICITY CHAIR**

Dan Johansson, *Luleå University of Technology*

**LOCAL ARRANGEMENTS CHAIR**

Karl Andersson, *Luleå University of Technology*

## SOCIAL PROGRAM AND ATTRACTIONS IN NORTHERN SWEDEN

Norrland, the northern part of Sweden; an exciting and exotic place, known for its lovely spring sun, enchanted summer nights and autumns of wonderful beauty. When you visit us in December you'll get to experience a Norrland preparing for Christmas; the winter dark is lit up by Christmas illuminations and decorated trees, and in many places you can find Christmas fairs, with genuine Swedish handicraft and Christmas presents to bring home.

There is much to experience here, and much to see not the least; from extensive mountains and forests, to beautiful old houses and works and fairylike places like the Jukkasjärvi Icehotel. Sweden's biggest rivers and highest mountains are all located in Norrland. And in the middle of all this untamed nature, you at the same time find a vastly expanded IT-infrastructure, with wireless connection, high quality mobile networks and almost constant access – the best of two worlds!
